2,005 Enrolled At University

An enrollment record has been established at DePauw University, where the registration figure exceeds 2000 for the first time under normal conditions.

Attending classes in the College of Liberal Arts, School of Music and School of Nursing are 2005 students, an increase of 33 over last year's Fall semester total.

During the post-World War II period, 1946 through 1949, enrollment ranged from 2022 to 2169, but the influx of returning servicemen was an important factor in each year.

Men currently outnumber women on the DePauw campus. 1023 to 982, and a division by classification shows 339 seniors, 395 juniors, 552 sophomores, 636 freshmen, and 32 graduate and special students.

Size of the student body has increased steadily since 1952, when the final registration figure was 1681. Enrollment reached 1738 in 1953, 1765 in 1954, and 1972 last year.

Students enrolled in DePauw's Evening Division and preparatory students in the School of Music are not included in the totals released by Registrar Value Williams.

CORN CROP EXCEEDS SEPTEMBER 1 ESTIMATE

WASHINGTON (UP)—The Agriculture Department Wednesday estimated Hoosierland's 1956 corn crop at 286, 980,000 bushels, almost 10 million bushels more than the Sept. 1 estimate.

The Oct. 1 estimate compared to Indiana's 1955 corn crop of 276,136,000 bushels. The Sept. 1 estimate was 277,414,000 bushels.

The latest estimate was part of the nation's expected 1956 corn crop of 3,369,102,000 bushels.

Chicago Pastor In Chapel Talk

"Our faces show more than we suspect," the Rev. Amos Thornburg of Chicago's Trinity Methodist church said at a DePauw University worship chapel yesterday morning.

Because all moods of life, from inner serenity and purpose to defeat and despair, are revealed, he continued, each person might do well to ask himself two questions.

The first of these questions, according to the Rev. Thornburg, is "What does my face do to me?" and the second, "What does my face do to others?"

He also suggested that, if desires, hopes and actions are made to correspond closely with life, there will be no disunity between deeds and dreams.

New Blaze Under Control At Park

WINAMAC, Ind. (UP)—A fire that destroyed more than 5,000 acres of timber at the Jasper-Pulaski State Game Preserve early this week broke out again late Wednesday and burned about 15 acres.

Seventy fire-fighters brought the blaze under control in about two hours. A brisk wind whipped the flames through the dry timber.

Conservation authorities said Wednesday's fire probably resulted from smoldering roots underground left over from earlier blazes.

Thirty-two prisoners from the State Prison at Michigan City joined 50 other prisoners at the preserve Wednesday to keep watch for more outbreaks.

TEEN-AGE GANG CAUGHT; THREE IN JAIL HERE

ROBERT YORK OF COATESVILLE IS OLDEST MEMBER OF GROUP

Seven Hendricks county teenagers, ranging from 14 to 18 years of age, have been taken into custody by county authorities, in connection with a series of thefts in Danville, Plainfield, New Winchester, Avon, Indianapolis and Putnam County.

Hendricks County Sheriff Leon Bayliss said the 18-year-old youth is Robert York of Coatesville. Sheriff Bayliss said three of the boys, 14, 15 and 17 years old live on Danville Rural Routes but attend school at New Winchester. Two of the Danville youths involved are 17 years old and one 16.

Sheriff Bayliss said two of the Danville boys, one 17 and the other 16, were victims of circumstances and were with the other youths when a headlight was stolen from a car on the Plainfield Ford Parking lot. Bayliss said he plans to have charges of burglary in the first and second degree filed against all but the two youth from Danville.

While authorities are still investigating the thefts, the list of stolen property includes: an electric drill, sparkplugs, a case of heavy duty oil, wrenches, spinner hub caps, 5 horsepower elevator motor, a used tire, two spotlights, a head light and tail-light of a car, fender skirts, antifreeze and money. The gang also took gasoline for their car as needed, according to the sheriff.

State Police Detective Gene Trowbridge said the youths began operating the middle of August when they stole some hub caps from a car at the airport in Indianapolis. However, most of the items have been stolen in the last month, according to authorities.

Sheriff Bayliss said most of the stolen items had been transported in York's car. Detective Trowbridge said York was employed at a hardware company in Indianapolis.

In addition to the thefts, Sheriff Bayliss said the gang used a red cover over a spotlight and had forced three motorists off the road. Bayliss said the youths then accused the motorists of speeding and other violations. The three Danville youths are being held in the jail at Lebanon and the three from New Winchester are in the Putnam jail at Greencastle. York is being held in the county jail at Danville.

In addition to the numerous thefts two of the youths were responsible for breaking into the Dewey Groshong house, north of Danville last week.—Danville Gazette.

'Meet Our Town' Plans Completed Talks Fail In Canal Dispute

The committee for the "Let's Meet Our Town" Celebration was working feverishly today on the last-minute arrangements for the big Friday and Saturday events. The forecast is for a record turnout on both days. There will be action on the square morning, afternoon and evening. Tickets for the free "pony rides" and the registration for the valuable awards were being distributed to the business places participating in the Celebration. Kenneth Eitel, chairman, announced this morning that the pony rides will be on the vacant lot across from the Commercial Hotel. Those with tickets are to bring them to the lot for the free rides.

Greencastle merchants have made special efforts to buy much desirable merchandise and offer it for sale at special prices during these two days of the Celebration. The hundreds of persons coming to Greencastle during the two days will be entertained royally by high class entertainers being brought to Greencastle especially for "Meet Your Town" Days.

An authoritative source said an open session will probably be held in the Security Council Friday to let Israel and seven Arab nations make statements concerning the canal crisis.

Pineau said today's secret Security Council meeting will be a brief one in order to allow more time afterward for the continuing Anglo-French-Egyptian talks. Informed sources said the post-council session might run well into the night.

Vets Will Get Loans For Homes

WASHINGTON, (UP)—The government plans to start lending again to home-buying veterans who live in certain rural areas and small communities where mortgage money is hardest to get.

This action, announced Wednesday by the White House, will supplement two government programs already in operation—the Veterans Administration program of guarantees for mortgage loans by banks and other private lending outfits and the voluntary home mortgage credit program which serves as a channel through which would-be lenders and would-be borrowers can find each other.

The VA also lends federal funds to qualified ex-GIs in some areas if they cannot get private financing for a home. The new action will expand the list of areas eligible for this direct government lending.

The new areas will be announced after Oct. 15. They will be areas which were formerly eligible but were made ineligible when private capital became available.

British Set Off 3rd Atomic Blast

MELBOURNE, Australia (UP)—Britain carried out its first nuclear weapon air-drop at the Maralinga Proving Grounds in southern Australia today, it was announced.

Australian Minister of Supply Howard Beale said the bomb was released from a Valiant jet bomber.

It was the third nuclear device to be detonated during the current series of tests at the proving grounds by the British ministry of supply.

Scientists said they expected the latest test to result in less fallout than the previous blasts because minute radioactive particles would remain high in the atmosphere.

59 SERVICEMEN ABOARD MISSING BIG U.S. PLANE

AIR TRANSPORT VANISHES EN ROUTE FROM ENGLAND TO U. S.

LONDON (UP)—A U. S. Military Air Transport Service plane with 59 homeward bound American servicemen aboard vanished early today over the Atlantic Ocean between England and the Azores.

Within hours the Air Force threw its 9th Air Rescue squadron into operation and "more than a dozen" airplanes began a systematic search for the missing plane, criss-crossing the east Atlantic from southern England to the Azores.

The rescue planes included amphibians, KC97 flying tankers and British Shackleton bombers. Aircraft was called in from Prestwick, Scotland, and Orly Field, Paris, to join the search.

At least three ships in the area were alerted to look for wreckage and survivors.

The plane left the U. S. air base at Lakenheath, England, Wednesday night for a trip to Lajes, in the Azores. It was last heard from 180 miles southwest of Land's End off the southern tip of England.

The big plane, a C118, the military version of the Douglas DC6 transport, was carrying nine crewmen and 50 U. S. servicemen based in England.

The Air Force at midnight alerted ships at sea to watch for the plane. The plane then was four hours overdue. It then had only an hour's more fuel.

IKE DISCUSSES MANY MATTERS WITH NEWSMEN

DENIES HE EVER CONSIDERED ENDING DRAFT, BOMB TESTS

WASHINGTON (UP)—President Eisenhower denied today that he had ever considered announcing during the campaign plans to end the draft and H-bomb tests.

The President also said he would go before the United Nations if he thought such a personal appearance would help solve the Suez Canal crisis.

Mr. Eisenhower reiterated his long standing position that he would go anywhere in the world and do anything to get peace with justice.

At his news conference, Mr. Eisenhower was asked about reports that GOP campaign strategists originally planned announced an end to the draft and H-bomb tests but had been forced to drop them after Adlai E. Stevenson came out with statements on the two subjects.

Mr. Eisenhower said the reporter was telling him things about his administration he had never heard of. And he said he never had considered any such announcements.

In answer to another question about Stevenson's campaign statements about ending H-bomb tests, Mr. Eisenhower said he had said his last word on the draft and H-bomb test issues in the political campaign.

In other highlights of his news conference, Mr. Eisenhower said a new drought program will be announced later today and a conference of all the responsible people in the drought stricken areas will be called after the election.

Said he believes the names of all passengers on government-operated ships should be made public. He said he can see no reason on earth why such passenger lists should not be published the day the ship sails. This comment was in response to a question about reports that members of Congress by the score have been taking free Caribbean cruises on ships of the publicly owned Panama Line.

'MEET OUR TOWN' FRIDAY AND SATURDAY

Weather Warmer In Middle West

Cool air dominated the weather over both the East and West Coasts early today while the nation's mid-section warmed up.

A cool air mass covered the Eastern Seaboard from the New England states southward to the Carolinas. Temperatures fell below freezing in many parts of the New England states, but were mostly above freezing in the Mid-Atlantic coast states.

Cool Pacific air, meanwhile, invaded the Pacific Northwest, the northern Rockies and parts of northern and central California. Light rain accompanied the chilly air mass.

Southerly winds pushed warmer temperatures over the northern and central plains and the upper and middle Mississippi

Valley. A few widely scattered showers and thunderstorms were noted in the warmer air through eastern Iowa and northeast Minnesota.

It still remained very cool in the Great Lakes region, particularly in the northern sector where readings were in the 30s. Grand Marais, Mich., however, reported a 21-degrees reading early today.

Precipitation was expected today over the upper Mississippi Valley, parts of the northern plains, the southern states and west of the Rockies. Elsewhere it was to be generally fair, with considerable cloudiness in the south.

Cancer Vaccine May Be On Way

CHICAGO (UP)—A vaccine against cancer may possibly result from research work conducted by two Americans and two Mexicans, it was reported to the International Cytology Congress.

Hector Mangula and Esther Franco, both of Mexico City, told the Congress Wednesday their work had confirmed earlier findings of Dr. John Graham and his wife, Ruth, at Harvard University.

The Grahams found that the sensitivity of women to their own cancers can be varied by the administration of large doses of male hormones.

The Grahams have worked with antigens, which are sub-

stances foreign to the body but which affect it much like pollen does hay fever victims. Inserted under the skin and used with X-rays, the antigens increased the antibodies against cancer by two to three times, they reported. The Grahams, however, have stressed that no cancers have been cured by the procedure. Other research workers say the Grahams' research has opened up important fields for investigation.

YANKS WIN SERIES

NEW YORK—The New York Yankees won the World Series yesterday afternoon by trouncing the Brooklyn Dodgers, 9 to 0 in the seventh and deciding game.

Johnny Kucks hurled 3-hit ball for the champions. Yogie Berra smacked two home runs and Elston Howard hit one circuit blow. Bill Skowron's grand slam homer was the highlight of the contest.

Don Newcomb, Brooklyn's mound ace, was shelled from the mound early in the tilt and was the loser.

Trusts Farmers' 'Good Judgment'

GARDEN GROVE, Iowa (UP)—Agriculture Secretary Ezra Benson said today he was "content" that Democrats have made a campaign issue out of his farm program because he trusts "the good judgment" of the farmer. Benson said Republican decisions on farm problems were "sound and wise" and he welcomed the opportunity to defend them.

BLOODY BATTLE WAGED
NTHANYA, Israel (UP)—Israeli and Jordanian forces inflicted heavy losses on each other in an eight-hour battle along 12

miles of their frontier today in some of the worst Holy Land fighting since 1948. Israel put its official losses at 16 killed, while the Limassol Radio on Cyprus quoted a Jordanian statement as reporting 25 dead on the Jordan side. This toll was almost certain to rise in later reports. Israel said its army attacked Jordan's Arab Legion. Jordan accused Israel of sending jet fighter bombers as well into the border battle. A powerful Israeli force hit the Jordan border fortress of Kalkilya just after dark Wednesday in retaliation for the mutilation slaying of two Israeli workers in the same area on Tuesday night.

Exciting new taste discovery!

Imperial- the only margarine with real natural taste!

Forget everything you know about margarine. If you've ever been disappointed in the taste of margarine—forget it. If you've ever thought of margarine as a substitute—forget it. For now, at long last, there's a new margarine so far ahead of anything you've ever tasted . . . so superior in every way . . . it makes every other margarine old-fashioned.

It's new! It's revolutionary!

We're talking about IMPERIAL. We're talking about a delicious spread that captures for the first time the NATURAL taste . . . real natural taste . . . that's always been missing in margarine—until now!

But that's not all. Imperial not only tastes good—it smells good. In the frying pan, on hot rolls or toast, on a baked potato or cooked vegetables—in

every way you use it—Imperial has a delightful natural aroma that matches its real natural taste. Refrigerated all the way! You'll marvel at its freshness. You see, Imperial is delivered ice cold to your grocer. And it is kept that way at all times. You'll find Imperial only in your grocer's refrigerated case. And we hope you'll keep it in your refrigerator where it will stay as fresh as the day it was made.

Imperial costs a little more than ordinary margarines—but, believe us, it costs a lot more to make. And it's unconditionally guaranteed. If for any reason whatsoever Imperial doesn't measure up to your expectations, Lever Brothers will refund every penny you paid for it.

At last! Real natural taste!

Try it on bread, on hot cereals, cook with it, fry

with it, smell it in the pan. Imperial is just delicious! And if you think we're enthusiastic—well, we'd love to hear what you say after you've tasted it! Remember: Imperial is the only margarine with real natural taste.

The president said all who wished to send gifts for mental patients could be taken to the Hitch Hardware store room by the last of November.

Motion was made to hold a bake sale sometime in December. Paula Marks gave the lesson on furniture arrangement.

Members were divided into groups and given room plans and furniture and asked to arrange them. The lesson was well given and all enjoyed talking over their own problems.

A social hour followed when the hostesses served dainty refreshments.

DePauw's Bill Blake cut 23 seconds off the local course record as the Tiger cross-country squad defeated Hanover, 27-29, here yesterday afternoon.

Almost overshadowing Blake's accomplishment, however, was the performance of a DePauw freshman, Dick Strakowski, who competed unofficially and finished four seconds ahead of his sophomore teammate.

Blake was timed in 18:14 for the 3 1/4 mile run, shattering the 18:42.4 mark established by Jack Boonen in 1953. Strakowski's unofficial time was 18:10.

The Bengals' victory over Hanover was achieved with team balance as the visitors placed Les Spriggs, Mickey Lamson and Tom Bohlsen in the second, third and fourth spots behind Blake.
